CUBBIES QUALITY

PRODUCING THE HIGHEST QUALITY PRODUCTS

At Cubbies, we are entirely focused on producing the highest quality products available. The little things offer us the opportunity to add special details that create the Cubbies signature look.

SAFETY

Cubbies are fun, imaginative and use no hard parts but making sure they are safe for children of all ages is our number one goal. Even the smallest detail of each one is made for maximum safety, durability and wash-ability.

DETAIL

A great amount of thought goes into every single part of our detailed designs, even something as small as a tail. Each detail is designed with great care and precision to ensure that each product is truly 'cubbylicious'.

FABRIC

We travel far and wide (even to places that don't have WiFi) to find the softest fabrics for our Cubbies to make them all 100% huggable. Each animal's features are carefully considered and the perfect fabric is chosen to match.

FINISHING TOUCHES

We see even the smallest detail as an opportunity to add that little extra Cubbies character to our products. There really is a sprinkle of magic in every single one, and it's these special pinches of imagination and fun that make a true Cubby.
